WORK EXPERIENCE

Voodoochilli   May 2024 - Present
Fullstack Developer   Remote
 https://www.voodoochilli.com/

- Delivered the company's largest website project (£35k+) in 1.5 months, starting within my first weeks on the job.

- Built a Laravel CRM for user management, mass emailing, and transactional emails via Loops.so.

- Built 7+ bespoke WordPress websites each in under 30 hours, ensuring pixel-perfect Figma translations and attention to detail on all screen sizes.

- Leading the IT department, managing support, client communication, CMS demos, website optimization, migrations, and mentoring a junior developer.

Kilo Health   Jan 2022 - May 2024
Fullstack Developer (React, WordPress)   Remote
 https://kilo.health/

- Developed 4+ startup websites for a digital health company (6.5M+ customers) using React, Next.js, TypeScript, and Chakra UI.

- Developed 30+ WordPress blogs and e-commerce sites, working with PHP, SCSS, HTML5, vanilla JS, and jQuery.

- Deployed websites via GitLab CI/CD on Kubernetes servers.

- Led WordPress development, balancing WordPress and React backlogs with an Agile-Kanban approach.

Incsub   Jan 2021 - Jan 2022
WordPress First Line Technical Support   Remote
 https://incsub.com/

- Provided real-time support for WPMU DEV plugins (5M+ installs) and hosting, handling 1-3 live chats and delivering coded solutions within 30 minutes.

EDUCATION

Newcastle University   2016 - 2020
Computer Science   Bachelor's degree

- Developed a Travel Itinerary Generator as my final year project utilizing Ionic, Angular, and TypeScript, achieving the highest mark in the UK grading system with a score of 87%.
